

Capabilities Statement

Core Competencies

Provider of customizable uninterruptible power supplies designed for single-phase and three-phase applications with powers ranging from 400VA to 20000VA and voltages from 110V to 240V. Specializing in custom and OEM solutions with a focus on specific niche markets. Both double conversion and various line-interactive configurations (with automatic voltage regulation) are available. Technological features and advantages include dual microprocessor control, multifunction LCD panels, hardware and other connectivity options, network capability, various methods of remote signaling and control, harsh environment models and alternative energy storage choices.

Differentiators

- Custom Specifications & Part Numbers
- US-Based Application & Technical Support
- ISO-9001 Certified Manufacturing Facilities
- Various DOT Approvals
- Long-Life Product Designs
- Several Forms of Ruggedization
- Local Inventory & Buffer Stock
- Fast Turnaround of Prototypes & RMA's
- Expedited Shipping Options
- Sales & Marketing Support
- Specialized Product Training

Past Performance

Founded in 2003, Marathon Power takes pride in established long term relationships with our clients. Our ability to meet and go above and beyond customer requirements has enabled us to continue to service some of our first customers. With qualified and experienced product sourcing we have instituted contracts with private, commercial and international companies. Some of our customers are:

Company Data

Agency Standards Certifications & Compliance

Most of our standard products are certified to the latest edition UL and CSA standards for the 120V models and CE (both LVD and EMC) standards for the 230V models. However, some models have both UL/CSA as well as CE certifications based on customer and/or application demand.

Given our focus on customization, the extent of which often voids any preexisting certifications, we work with our local Nationally Recognized Test Lab (NRTL's) to have any model tested and certified to any standard as required.
