# INDUSTRIAL AUTOMATION

**Customizable Uninterruptible Power Systems**

Wide range of Industrial UPS's, designed to provide maximum protection in the most rigorous environments.

WE GO THE **D I S T A N C E** FOR YOU

## Why an Industrial UPS?

Marathon Power's customizable UPS systems are designed to provide protection in the most rigorous environments. Hazardous conditions such as extreme or uncontrolled temperatures, excessive humidity and harsh chemicals require a durable Industrial UPS that can withstand these elements and ensure the highest level of protection.

### APPLICATIONS

- ▶ Industrial Control
- ▶ Process & Motion Control
- ▶ Robotics & Factory Automation
- ▶ Water Treatment Facilities
- ▶ Semiconductor Fabrication
- ▶ Transportation Systems

### FEATURES & BENEFITS

- Wider temperature ranges
- Long life components
- Extra cooling
- Fully customizable
- Conformally Coated Circuit Boards
- Hardwire and receptacle connection options
- Batteryless Options
- Automatic Voltage Regulator

### COMMUNICATION & ACCESSORIES

- SNMP / Web Card
- AS-400 Dry Contact Relays
- Battery Harness Kit
- External Maintenance Bypass Switch
- Mounting Brackets

### CUSTOM & APPLICATION SPECIFIC SOLUTIONS

*Custom Firmware*

*Environment-Specific Designs*

*Remote Control and Auto-Start Functionality*

*Interchangeable Input / Output Panels*

*Hardwire AC / DC Connectivity Options*

Marathon Power Industrial UPS's offer both Line Interactive and Double Conversion technology. Our UPS's are extremely versatile, fully customizable and programmable. Various energy storage options are available as well as a batteryless version. Most units are available in 120V, 208V and 230V.
